For managers and Commandos

For: reporting managers, acting managers, project leaders, Commandos, and HR answering their questions.
Version: 2, October 2026.

You don't need a PEA account. Everything starts from a link in an email. Every PEA email comes from **hr2@aapnainfotech.com**. Each link is personal and works for a limited time, so don't forward it.

Contents

1. Reporting managers
2. Filling in the evaluation form
3. The final evaluation: the confirmation decision
4. Your team page
5. Acting managers and project leaders
6. Commandos
7. When a link does not open

---

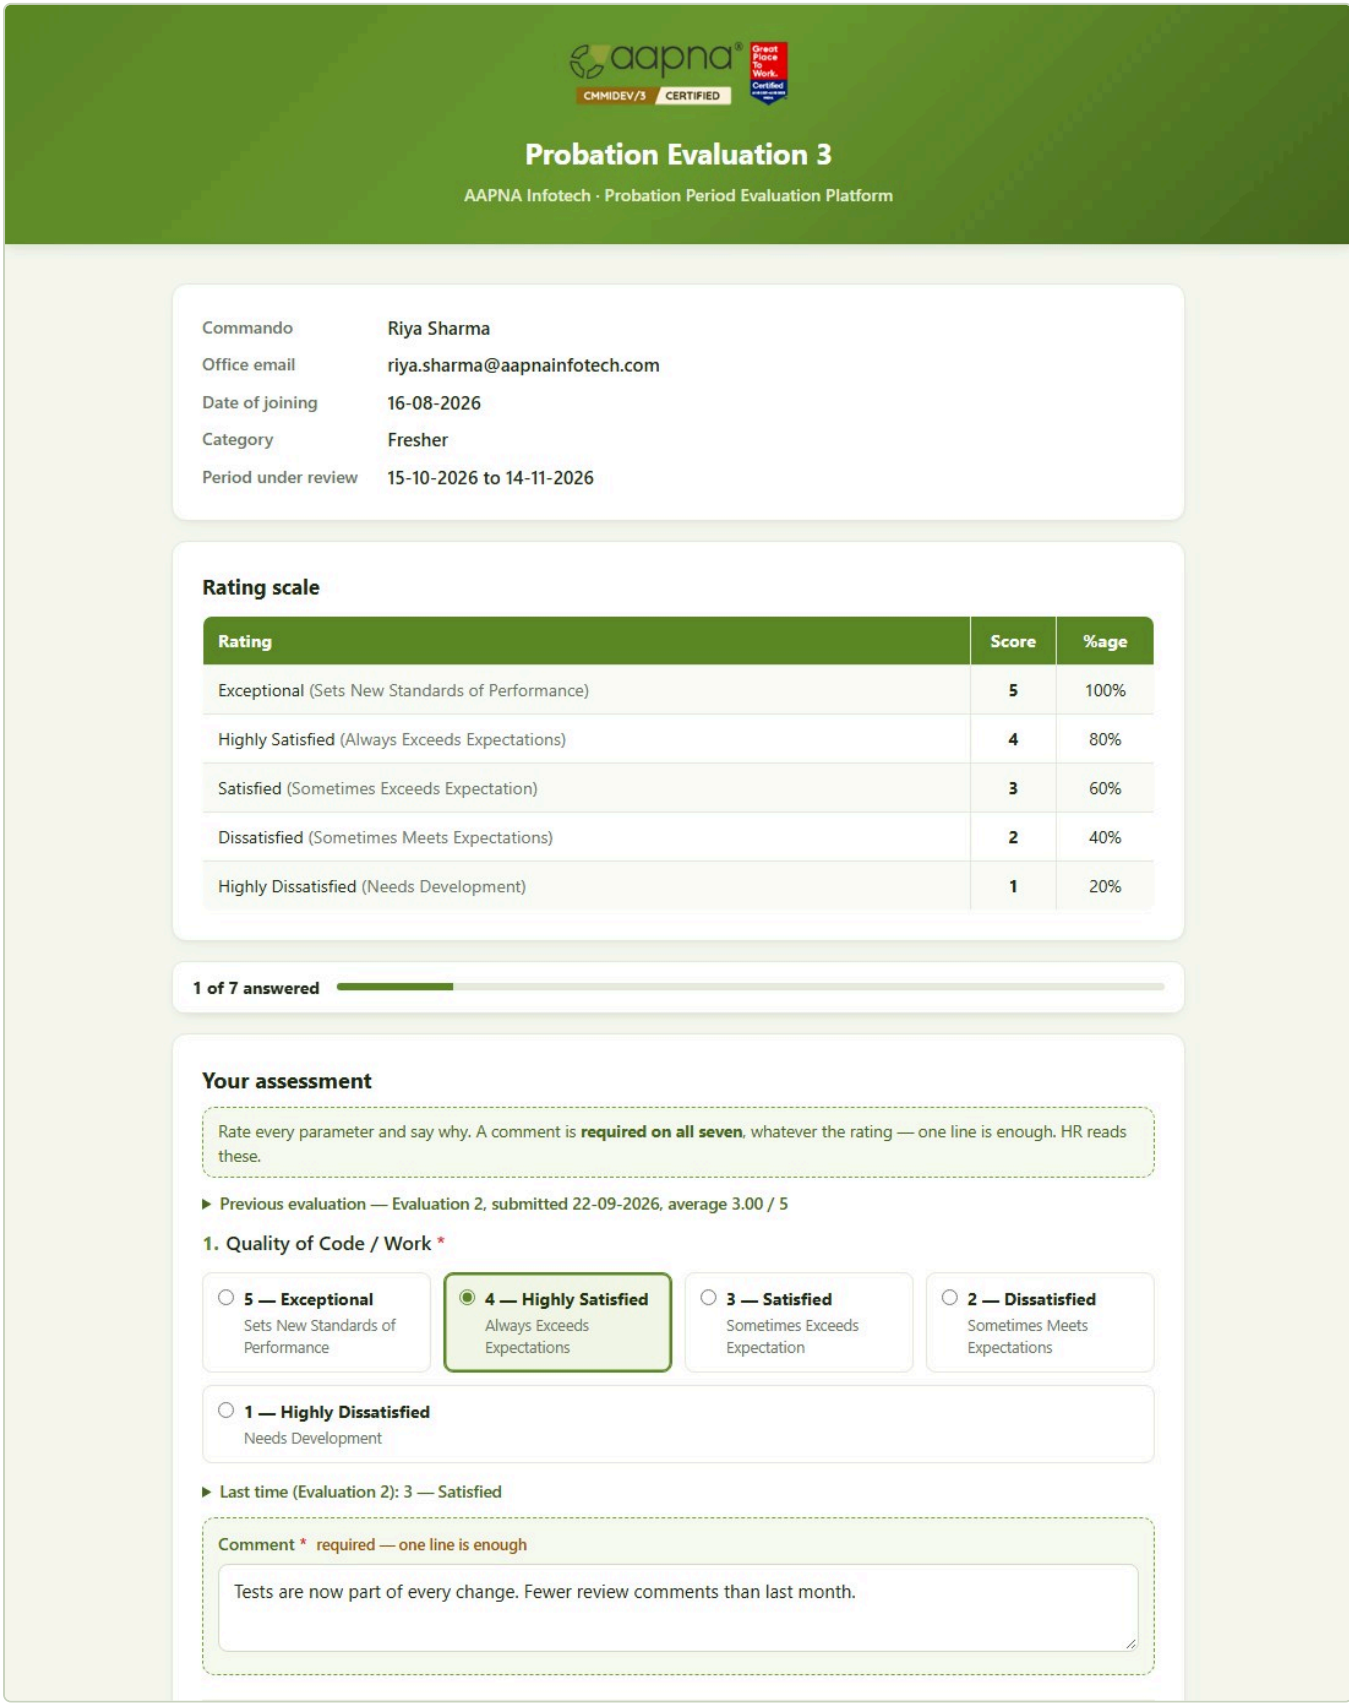

1. Reporting managers

You evaluate each person who reports to you during their probation: **6 times** for a fresher (every 30 days) and **3 times** for an experienced hire (every 60 days).

Email	What to do
The evaluation email (the subject names the evaluation and the person)	Click **Open evaluation form** and fill it in (section 2). The email shows the period you are rating and the rating scale
Reminder 1 / Reminder 2 (same subject, starting "Reminder")	The form is still waiting. Same link. Reminders come 2 and 4 days after the first email
Reopened (subject starting "Reopened")	HR has sent a submitted evaluation back to you to correct. The reason is in the email; your earlier answers are filled in, so change only what is wrong
Your team's …	Your "my team" page link (section 4)

The form link works for **30 days** after it is sent. If it has expired, ask HR for a fresh one.

2. Filling in the evaluation form

The evaluation form

1. Check the details at the top: the Commando, their date of joining, fresher or experienced, and the **period under review**.

2. For each of the **seven questions** (Quality of Code / Work, Meeting Deadline, Communication & Presentation, Proactiveness, Skill Development, Cultural Fit, X-Factor):
    - choose a rating from **1 — Highly Dissatisfied** to **5 — Exceptional**;
    - write a **comment**. A comment is required on every question, whatever the rating; one line is enough. Specific examples help the person improve.
    - From the second evaluation on, **Last time** under each question shows what you rated before, so you can rate progress.
3. Add **Overall remarks** if you like (optional).
4. Click **Submit evaluation**. The bar at the top shows how many questions you have answered.

- **Your work is saved as you go.** The form saves a draft a few seconds after each change, and **Save draft** saves it now. You can close the page and finish later, even on another device, from the same link.
- If something is missing, the form lists it at the top and marks the question. Nothing you typed is lost.
- The form can be submitted **once**. Please check before you submit. If you made a mistake afterwards, ask HR to reopen it.
- After submitting you see **Evaluation Submitted**. You can close the tab.

3. The final evaluation: the confirmation decision

The last evaluation of the probation also asks for a **confirmation decision**:

Choice	What happens
Confirm	The person is made permanent. No further evaluations
Do not confirm	The probation ends without confirming. No further evaluations
Extend by 1 month	One more evaluation, one month from now
Extend by 2 months	Two more evaluations, one and two months from now

- For anything other than **Confirm**, give a **reason**: what would need to change for the person to be confirmed. HR sees it with your ratings, and it goes on the person's record.
- A probation can never run past **8 months**, so after an extension fewer choices are offered. The form says so.

4. Your team page

HR can send you a link to a page showing **everyone who reports to you** in PEA:

- each person's type (fresher or experienced), joining date, and the decision once made;
- every evaluation with its period, due date, status and **your average**;
- an **Open form** button beside any evaluation waiting for you.

The top of the page shows how many evaluations are waiting for you and until when the link works (30 days). A new link from HR replaces the old one.

5. Acting managers and project leaders

Acting managers. If the reporting manager is away, HR may send **one** evaluation to you instead. You get the same email and form; the reporting manager is copied. The next evaluation goes back to the reporting manager.

Project leaders are copied on every evaluation email and reminder for their Commandos. Nothing is needed from you; it keeps you informed.

6. Commandos

HR can share a personal link to **your own probation page**. It shows:

- your evaluations, their periods, due dates and status (**Scheduled**, **With your manager**, **Submitted**, **Closed**);
- depending on what HR has chosen, your **average** for each evaluation and the final decision, and possibly your manager's ratings and comments.

The link is personal to you. It works until the date shown at the bottom of the page, and stops working if you leave AAPNA. Questions about what you see: speak to HR.

7. When a link does not open

Page	Means	What to do
Evaluation Already Submitted	The form was already submitted	Nothing. If it needs correcting, ask HR to reopen it
Evaluation Link Expired	The link is past its time limit	Ask HR for a fresh link
Evaluation On Hold	HR has paused this person's evaluations	Nothing for now
Evaluation Link Inactive	The link was replaced (for example HR resent it, or sent it to an acting manager) or is no longer needed	Use the latest email, or ask HR
This link cannot be opened (team or Commando page)	The link has expired or been replaced	Ask HR for a new one
